

CONGRATULATIONS! Newly Elected and Appointed Officials

Whether this will be your first year, or you feel that you are a “new” official that would like to get more information- WE LOOK FORWARD TO SEEING YOU! The Indiana Township Association (ITA) is a membership services organization with the primary purpose to educate township officials, providing a lobbying presence in the Indiana General Assembly, and providing communication services between and amongst townships.

Over many years of working with hundreds of new trustees and board members, the ITA has discovered several threats that have hampered first-term success. “Trying to do it alone” or assuming that because “it’s the way it’s always been done” is the right way are without doubt the biggest hazards to your success. Accessing mentors and education is the simple solution for avoiding a collision course with failure.
